

The Operators Consent To Modify Proposition

Calgary Coal Conference is Still in Session, and Strike is not now so Imminent—Operators ask for Closed Session of Scale Committee—Miners Sore at Operators Quibbling.

Special to the Bulletin.

Calgary, March 21.—The operators and miners met again this afternoon. The international board representative, Mr. Patterson, asked if the operators had any proposal to put before the miners in answer to ultimatum. The operators said they already had made one proposal, and they wanted this and the miners' ultimatum to go before the scale committee. The miners would not agree to this, and the president, Mr. Sherman, moved, and Galvin seconded, a motion that the convention adjourn sine die.

There are only two representatives from each side who do the voting, and unless everything carried unanimously, a motion is lost. In this case the miners were for adjournment, and the operators were against it. The motion was consequently lost. Of the opposing motion, as they had the proposition from the miners other than their ultimatum. The miners again accused the operators of quibbling, and said that their patience was now worn out. They said that if the operators had a proposal to put before the convention in answer to the ultimatum, they would bid them good day. The operators said they had no proposal for an open conference, but in a closed session they would be glad to put one.

Sherman declared they should have shown the line and found the man taken this position at the start. There had been a closed session, and nothing was done. The miners had presented their ultimatum, and would stand by it. They intended to have a

share of the property of the country or know the reason. He had foreseen for a number of years that this would take place, and had talked to the miners regarding it, but the first operator he had spoken to on the wage question told him to go to "hell."

A motion was then made to go into scale committee in closed session, and discuss the last proposition of the miners and the case from the operators. The motion carried.

The operators declared that to agree to the present wage scales, which are in cases all in, and differ as widely as possible, would be to give the object of convention, viz., the securing of a uniformity of conditions and rates. If an agreement is earnestly desired by the miners, it is only possible by first arranging a uniform basis, which could only be reached by a full discussion of the conditions in a closed session of the scale committee. The operators would modify their demand and the object of the conference, which they would propose the following:

That when the scale committee the operators would modify their demands asking for a decrease of twenty per cent. and adding a twelve and a half per cent. increase for outside laborers, not otherwise classified in the schedule.

The miners agreed to consider this proposal, and their ultimatum in a closed session of the scale committee, and after the operators had left the room for thirty minutes to allow the miners to think matters over the conference reconvened in closed session.

CREAM SEPARATOR INDUSTRY.

Edmonton Has the Opportunity to Secure One Which Will Employ 25 Hands at the Start.

Edmonton may secure another new industry and Mr. F. S. Rogers of Durham, Ont., has written the mayor asking what inducements the city is prepared to offer for the establishment of a cream separator manufactory. Mr. Rogers represents a company which proposes establishing a factory in the west, and they intend to go to the city offering the best inducements.

This factory would employ 25 men at the start, and would be of a capacity of 10 machines per day. The buildings required are a machine shop, a paint shop, a storehouse 30 by 50 feet and an engine room, finishing house and office.

Ald. Daley, chairman of the Industrial committee of the council has been in hand and will make a report to the council at its regular meeting next Tuesday.

TO CLEAN THE CITY STREETS.

Now that the spring weather has made for cleaning the city streets, the refuse that has accumulated during the winter.

Mayor Greenback this morning said that the city engineers would get to work immediately and in a few days the streets will be much cleaner than at present.

The demand for coal throughout the city is light now, and the dealers are stocking up for the season of bad roads. Down at the Edmonton Coal Co.'s yards nearly 1,000 tons are stored and the other yards are nearly as well supplied.

Last night's hockey match will be the last of the season at the Thistle. The city sportsmen are making out the year, and the city sportsmen are making out the year, and the city sportsmen are making out the year.

Among the resolutions passed was one to the effect that while the convention commended the local government for the advanced temperance legislation adopted last session, it regretted that the government could not see to the clause requiring the early closing of the saloons, and the amendment to the local option clause.

THE FIRE RECORD.

Fire Plend Buy in Montreal and Breckenridge, Minnesota. Exciting Fall of Montreal Fireman from Roof to Cellar.

Montreal, March 22.—Fire, which will cause the loss of upwards of \$100,000 broke out on Notre Dame street at 5 o'clock this morning. The fire started at the Canada Tag and Label Co., D. Morris, Sons & Co., wholesale woolens and cottons, and the Hudson's Bay Knitting Co. A feature of the conflagration was the fall of Joseph Bernier, a fireman, from the top floor to the cellar, where he escaped with but a few scratches and loss of his trousers, which were torn to shreds, as he straggled against the falling timbers.

The loss to the Canada Tag and Label Co. will amount to \$50,000, to the Hudson's Bay Knitting Co. \$30,000 and to the building \$10,000.

St. Paul, March 22.—Fire at Breckenridge, Minn., today caused a loss of over \$100,000. Mike Shea's lumber department store, with all its contents, was burned to the ground. The fire was discovered in the basement of the building, but could not be located on account of the dense smoke. Before the fire department arrived, and within a very few minutes, the entire basement was in flames, and the fire had burned its way into the first floor. The wind was blowing hard, and it looked for some time as if the fire would be out of control. The fire was finally brought under control, and the loss was estimated at \$100,000.

The fire was caused by a gas leak in the basement of the building, and the fire department was called in to extinguish it. The fire was finally brought under control, and the loss was estimated at \$100,000.

The fire was caused by a gas leak in the basement of the building, and the fire department was called in to extinguish it. The fire was finally brought under control, and the loss was estimated at \$100,000.

Will Ascertain Cost of Subway

City Council Approves Recommendation of C. F. R. Schreyer at Jasper Avenue.

Both the recommendation made by the committee dealing with the C. F. R. Schreyer subway proposition, were approved at the special meeting of the city council last night. The city solicitor is truly entitled to the credit of having secured the provision for the purchase by the city of a 30 foot strip of land along block 9 and 10, to provide for a 60 ft. subway and for a 40 ft. strip to provide for a 100 ft. subway.

The action taken by the council resolves itself into authorizing the securing of options on the property required, in order that the cost of the land in connection with the subway may be ascertained. The aldermen were making an effort to figure out how much it would cost to secure this property when alderman Picard interposed.

"I'm not prepared," he said, "to say that, because we have suggested a method of securing an entrance for the C.F.R. into the city, we have decided to purchase the property required. This discussion is going to be made from the question. What we are prepared to do is to secure options on the property, nothing more. When we have secured these options we can go to the railway and say here is the property you will have to pay your share. The C.F.R. has already agreed to build a subway. They said we will be discussing this. They said we are only helping the C.F.R. and raising the price of property at this point."

"It is not for me that the C.F.R. has agreed to build the subway," said Ald. Walker. "But there are two recommendations made by the company."

Went Big Subway.

"Many people want a 100 foot subway," replied the mayor, "but the C.F.R. has agreed to build only a 60 ft. It will, of course cost more to build the 100 foot subway. The C.F.R. has agreed to build the 60 ft. subway, and the city will take care of the balance of the cost."

It was moved by Alderman Garipey and seconded by Ald. Walker, that the cost of the two propositions be ascertained, which motion was carried.

AROUND THE CITY

—Ex-Mayor May left this morning on a week's trip to Nelson.

—Lieutenant-Governor Bueley left this morning on a week's visit to Winnipeg.

—Cookhask, Tooth street received the death and intelligence of the death of his brother Allen O., a well known resident of St. John, N.B.

—The Young Liberal club met last night at the club room. Debate opened at 8.30 and a full attendance of members is requested.

—The Alberta College Library Society holds its last regular meeting to-night at the college, when a musical and literary programme will be presented. Next Thursday night the society will hold its last meeting.

—A meeting will be held in St. John's schoolroom on Monday, March 26, at 8 p.m., for the purpose of organizing a football club in connection with the All Saints' Institute club. All interested are requested to attend.

—The Imperial bank is this week notifying the savings account depositors that in future interest on their deposits will be credited four times a year: January 31, April 30, July 31 and October 31. The new order went into effect February 1st.

—At a meeting of the executive of the Young Liberal club last night it was unanimously decided to reduce the membership fee from \$10 to \$5 a year. The club has recently placed a pool table in the billiard room, and along with the two billiard tables is in great demand with the members.

—Manager Deaman of the Edmonton Coal Co., phoned the Bulletin this morning to discontinue his rant against the miners for coal miners and teams, as he had more to be heard of. "It takes more than a few dollars," the Bulletin's advertising

DYNAMITING CASE AT LETHBRIDGE.

Chief Justice Sifton Says Oshinsky Guilty Enough in Jail for Want of Evidence.

Lethbridge, March 22.—The celebrated Oshinsky dynamiting case came to an end yesterday morning, without any evidence being taken. Chief Justice Sifton dismissed the prisoner, whom the crown asked for more time in which to secure evidence. The case dates from the strike of the miners here, during which two attempts were made against the house of John Booth, one in May and one in June. Peter Oshinsky was arrested in June and has ever since been in the cells at the barracks awaiting trial.

The crown yesterday was not ready to proceed asking more time, and the judge dismissed the prisoner, saying he thought he had been in jail long enough.

KILLED BY TRAIN.

Esteven, March 22.—A man whose name has not yet been ascertained, but who was a Russian Hebrew living here, was run over and killed by a train east of Blain last Saturday night. The fact that some one had been run over was discovered at the round house in Esteven, when the wreckage of the passenger car was found on the wheels of the passenger locomotive. A search party went down the line, and found the man badly mangled. Three freight trains, the passenger, are supposed to have also run over the man, but which train struck him down is not certain. The unfortunate man was in the freight during the afternoon and evening was seen walking down the track.

DEBENTURES SELL AT GOOD PREMIUM.

Brerlin, Ont., March 22.—The city treasurer made a good sale of city debentures yesterday realizing a premium of \$1,300 on \$84,000 debentures. The local firm were the buyers, outbidding two Toronto firms.

AFTERMATH OF BANK INQUIRY.

Toronto, March 22.—The old director of the Ontario bank will probably be made the defendant in a lawsuit at an early date. J. G. Lang, former chief clerk of the bank has been examined on behalf of the shareholders, and one stockholder in the defendant bank announces his willingness to contribute \$1,000 towards a suit against the directors for breach of trust.

COMMISSIONER PACE SCORED.

Council Endorsed His Minority Report in Reference to Superintendent of Water and Sewer Department Appointment.

Commissioner Pace's minority report in connection with the appointment of a superintendent of the new department of water and sewer systems was endorsed by the council. The regular report of the commissioners was in consequence turned down, and Norman F. Fedley, the independent appointee will not be engaged.

Ald. McCauley advised the promotion of Percy MacCallum who is at present in charge of the work.

In moving the adoption of the minority report, Ald. Picard said he would rather see a practical man appointed. Ald. Manson was in favor of appointing an experienced man even if he cost \$200 a month.

The department would be one of the most important of the city and it would be money spent to have a man with both experience and education in the position.

Engineer Keeley gave it as his opinion that the young man recommended would fill the position satisfactorily.

Ald. Daley was of Ald. Manson's way of thinking, that a good practical man was the man to secure.

Commissioner Pace in support of his report said:

"We do not want to experiment in this department. What we want is an experienced man. The superintendent of Waterworks in Vancouver paid \$150 a month. Last year we had a surplus in the waterworks department of that city of \$43,000, and I am satisfied that we could secure a man under him for \$125 per month."

At the rehearsal last night the Operatic society started practice on the stage work of the "Pirates of Penzance." It had no definite programme, but it was presented in the Thistle rink about the end of the season.

The Price of Lumber Soared Six Dollars

This Was the Increase Between December 1901 and March 1906—The Operations of the Alleged Combine—How Independent Dealers Were Frozen Out.

(From Our Own Correspondent in the Press Gallery.)

Ottawa, March 12.—The special committee selected to investigate the alleged lumber combine in western Canada met this morning, when the first witnesses were examined.

Factory Owner Called.

Mr. Chas. Thomas, of Hartney, Man., was the first witness. He was chosen by the executive of the Manitoba Grain Growers' association. Though a farmer he had an interest in a saw and door factory, and lumber yard in Hartney. Three years ago, when the enterprise was started, they were prevented from beginning business for three months by the refusal of lumber wholesalers to supply him with stock. Dealers in British Columbia, at Rat Portage and Rainy River, when applied to, had replied that there were already two established yards in Hartney.

Trade to From Out New Company.

His company had solved the problem by buying from the Thistle River Lumber Co., an American company to stay in business by this means the Canadian mills reversed their tactics and since that time the company had had no difficulty in procuring stock.

Prices went soaring in December 1905, and the following months lumber had been warned by agents and letters from lumber concerns that British Columbia lumber would advance \$4 per thousand in March, 1906.

This advance had taken place and was followed by other advances, bringing the total rise in price to the present \$6 per thousand. His company were not members of any dealers' association which they consulted their local competitors in fixing prices.

Mr. S. Q. O'Brien, of Strathcona, was next called. He had been a retailer for the past three years. There was a local association in Strathcona and Edmonton which fixed retail prices.

He knew of nothing to prevent him from wishing to do so opening a lumber yard. The wholesale association had never suggested to him what retail prices should be.

Take-Off For Contractors.

Contractors were given a discount of seven per cent. from the retail prices. There was also a Provincial Association, but owing to the difference of freight charges from the British Columbia mills to various points the association could not fix retailers' prices.

The following was the result of the investigation. This afternoon J. W. McNichol, managing director of the Enterprise Lumber Co., Lethbridge, was called.

There had been three advances in lumber during 1905, aggregating about \$4 per thousand, and a further advance since the new year. These advances were occasioned by advances in the wholesale prices, notices of which were usually given by a circular, followed by a price list of the Mountain Lumber Manufacturers' Association. These prices obtained generally among the mills.

An "impression" that the increased price of lumber to the retailer had been due to the increased cost of producing the lumber, wages and living expenses had increased, the cost of horses and fodder had gone up rapidly and each year the logs had to be brought greater distances to the mills. He had no definite knowledge, but estimated that the increase in the cost from 1905 to 1906 would be 30 or 40 per cent.

Mill Controls Retail Concerns.

He admitted that the East Kootenay Lumber Company owned a controlling interest in the Enterprise company, with its eight yards, but said the latter bought stock also from other mills.

The Question of Freight.

They did not handle American lumber, but because he understood the cost would be greater than that of the British Columbia article. He had been told so. Questioned by Dr. McIntyre, Strathcona, he admitted that

the Strathcona police made a raid on a dairy house, brought within the city limits by the new charter, in the west end on Tuesday night, and corralled two female occupants and seven visitors. The former were given \$50 and \$25 fine each and the others received a reprimand of \$10 each.

Temperance and Moral Reform

League Elect Their Officers and Draw up Constitution at Red Deer Convention.

The delegates from Edmonton who have been attending the temperance and moral reform convention at Red Deer returned home yesterday afternoon. At the convention which was in session Wednesday afternoon and Thursday there were over one hundred delegates in attendance from all parts of the province, and representing all Protestant denominations. The chair was occupied by Provisional Secretary F. W. Smith, of Red Deer, and J. D. Hayney was the provincial secretary.

The greater part of the time was taken up in the preparation of the constitution and the election of officers. It was decided that the name of the organization should be Temperance and Moral Reform League.

A permanent field secretary will be engaged to commence his duties by the first of May. His salary will be \$5,000 and expenses.

The election of officers resulted as follows:

President—J. D. Hayney, Edmonton.

Vice-presidents—Rev. D. G. McQueen, Edmonton; Rev. J. McKenney, Claresholm; Thos. Underwood, Calgary.

Secretary—G. W. Webber, Innisfail. Treasurer—Rev. Mr. Lang, Olds.

The provincial organization, with reference to the officers, will be along the lines of the local political parties. The provincial executive will consist, besides the elected officers, of the chairman and secretaries of the different electoral districts, and there will also be minor organizations in the polling districts.

Among the resolutions passed was one to the effect that while the convention commended the local government for the advanced temperance legislation adopted last session, it regretted that the government could not see to the clause requiring the early closing of the saloons, and the amendment to the local option clause.

Police Patrol In Far North

Constable Sellers Returns From Three Years at Fort Fullerton. His Tale

an interesting story of his journey.

Ottawa, March 21.—After an exile of three years in the lone northland at Fort Fullerton, along the coast shore of Hudson's Bay, maintaining, with three companions, in the solitary region of Canada's vast hinterland, the law and order which the British flag stands, after a journey of 1,000 miles through an unknown and inhospitable country into the Arctic, accompanied by a native guide, and an interpreter, with the temperature as low as 57 below zero, and in the face of a biting north wind, Constable L. E. Seller, of the Royal Northwest Mounted Police, is back in Ottawa on a well-earned two months' furlough.

His report of the work of the department with which he was associated, the hardships and perils, and the modest and brave, of staid, calm, characteristic of men of the "finest police force in the world."

Constable Seller left about three years ago with the Moose Arctic expedition in the exploratory trip into the regions around Hudson's Bay, accompanying the vessel as far as Fort Fullerton, the extreme northern point at which a portion of the coast. For three years he and three companions were the sole representatives of law and order. During that period one man was drowned on the evening of the day upon which the last sailed, and the chief of the party, Staff Sergeant Haynes, died one year later. Others replaced these.

A During Journey.

In February of last year a truly wonderful and dangerous journey was accomplished by Constable Seller. The failure of a supply ship of the traders to enter the harbor necessitated a patrol to the trader's vessel, the Ernest William, supposed to be in the press near Repulse Bay. From this point, accompanied only by an interpreter named Ford and a native guide named Tupasook, he set out. The ship, however, had gone farther north to Melchusauit, 400 miles from Fort Fullerton. This remarkable journey, accomplished under the most adverse conditions, was made by dog train in thirty-three days. The return, including a side journey, made up a total mileage of 900, and was accomplished in forty-five days.

The Constable's Diary.

Some account of this journey has already appeared in the press, as gleaned from the official despatches which arrived in Ottawa last fall. Constable Seller is now making a verbal report to Commissioner. The following extracts from his diary of the more eloquent in their brevity than anything contained in the pages of fiction. Some characteristic excerpts may be given.

On March 7, after the party had been fourteen days out from Fort Fullerton, he says: "I had a cache made of everything except our bedding, and two days' rations for ourselves. We had one small feed for the dogs. It was our only chance of making time, as the country was very rough and the sleigh too short for a big load. I expect to reach Cape Charles, at the Wager in two days if the weather holds good. We had to unhitch the dog three times today, as the dogs were very long and steep. Our supply of biscuits was finished last evening, and we had been on small rations for some days."

Biscuits All Gone.

March 10.—Our biscuits are all finished but in a couple of days at most we expect to reach the ship. Used the last of our wood tonight.

No Ship in Sight.

March 18, 1906—Broke camp at 4 a.m., having slept at our fire in night. We reached salt water about 7 a.m. About 3.30 p.m. we reached the anchorage in the islands, Repulse Bay, and to our surprise no ship could be found. We had to look around for some signs of natives, and to see if our cache had been left. We saw a block of snow with a stick in it pointing towards Beachy Point and the Moose Arctic. We thought it quite probable that some natives would be found between here and Beachy Point. Very cold today. I had both my feet badly frozen, and was in a very bad state, wet and worn out. We were compelled to break up some barrels, etc., and cook some food, as the G.T.P. will be contacted in ten-

the Scotch ship, Ernest William. Made 30 miles. March 20.—Terrible snowstorm; impossible to go out looking for natives. Our dogs are getting hungry, as they have had nothing since the 16th inst., and we cannot possibly give them anything out of what small supply we have for ourselves. My feet are very sore, the result of frost biting.

A Narrow Escape.

March 24.—Broke camp at 5 a.m. and made good fast time all day until dark, when we made our camp in an old igloo. Cooked our grub with wood taken from the islands. We had a narrow shave today. While navigating a sloping bank along a very narrow river bottom the sleigh began to slide down on us, and, despite all our efforts, it carried us all the time and as the train was running slow he was not seriously hurt. Calgary's assessment for 1907 will be \$12,538.08, which, on an eighteen mill rate, will produce \$230,504.

In commenting on his cooking facilities on the trip, Constable Seller says: "I had one small alcohol lamp with one gallon of alcohol. This lamp was so poor that it took fully three hours to boil three pints of water. I had also a smudge lamp, using coal oil, but the dirt and smoke nearly killed me, so I had to pitch it away. After the alcohol was finished, in twelve days, we used wood when we could get it. Otherwise we were forced to eat our food and use the wood for fuel."

Speaking of the natives of the Far north, he says the Nutchika Repulse Bay, comprising about 70 women and children all told, live in the ice all winter. They manage to subsist on seal, which they harpoon when he comes to his hole to breathe. They build a small wind break of snow and stand in the shelter with their harpoon all ready to stick at the seal when he pokes his nose through the hole. They frequently spend a whole day in this attitude before they are successful. Even then the seal may not come to that hole, as they generally have seven or eight of these blow holes.

The native informed him there was copper and some tall looking material like silver in the vicinity.

IMPERIAL SHOE STORE'S

The opening of the Imperial Shoe Store, which takes place tomorrow, will give to the public one of the finest displays of fine footwear ever made in the west. The general plan of the store is very attractive, handsome plate-glass cabinets containing samples of boots, children's hosiery and articles of house and carlin skin, in artistic arrangement of ferns and carvings add to the appearance of these "silent salesmen."

A cosy cushioned corner for children has been especially planned for the little ones' benefit, and a very wide range of footwear is carried for children.

Ladies' Fitting Room.

A pleasant sitting room, fitted up with a wide window-seat, easy chairs and desk, has been prepared on the second store side for the use of ladies. The wide window, commanding a view of the street, makes it as convenient as pleasant.

Novelties in ladies shoes are the patent ties and buttoned boots with gusset sole. The Duchess is a Canadian shoe of American workmanship, with an attractive finish and the new Minto. A novel feature is its closing with ties at the side.

The stock of men's footwear includes the Invictus and other fashionable makes, the new models showing the long, slender "Minto" style rather than the "spade" fashion so popular last year.

ONLY ONE FIRM HAS THEM.

Slater Shoes Are Always Sold at the Stamped Price.

There is only one store in Edmonton which carries the genuine Slater shoe in stock, and the Bulletin regrets that it was inadvertently left to publish in a recent advertisement a sale of Slater shoes at cut prices. The business firm in question did not have a pair of Slater shoes in stock, the only real Slater shoes in Edmonton being carried by Kelly & Moore, the men's outfitters.

"Not since the Slater Shoe Company started out to protect the public against imposition by pressing the price of each shoe the sole by a powerful branding machine has the shoe been sold in Canada or foreign countries for less than the guaranteed value," said the president of the

Airdrie farmers are getting \$12 a ton for their baled hay. There are now seven licensed auctioneers in Calgary. The North American Live Stock Company are clipping 9,000 sheep at Fort Arthur.

The new C.P.R. station at Calgary will cost \$900,000 and will be the very finest in the west. Strathcona and Calgary both aspire to have the new provincial university situated in their city. A site of 300 acres will be required for it.

Bank clearings for the week ending March 14 show Calgary to be eighth on the list of twelve Canadian clearing house points.

A passenger from the west walked a moving C.P.R. train at Cochrane Wednesday night. He was asleep at the time and as the train was running slow he was not seriously hurt. Calgary's assessment for 1907 will be \$12,538.08, which, on an eighteen mill rate, will produce \$230,504.

Sporting News

BRACKENRICK TROPHY COMES TO EDMONTON.

Local Men Final Game from Strathcona by 4 to 2.—Indifferent Playing.

All kinds of hockey, including a lot that wasn't hockey at all, were in evidence at last night's game between Edmonton and Strathcona which was won by Edmonton 4-0.

The game was somewhat of a disappointment. With a victory badly needed to give them a look-in for the Strathcona-Kent trophy and with their very best team in uniform, it was expected that Strathcona would go away with a victory, Edmonton being, at the services of W. Banford, who is at the moment with an injured knee. Last night's win gives Edmonton possession of the B and K honors, with three straight victories to their credit.

The ice was in desperate shape. There was an inch of water all down each side of the rink and the centre was very sticky. Fast going and team play was out of the question, and hand stands were a little uncertain. The players often over-estimated the puck. Little were the order of the evening and the winners had considerably the best of it even at this style of play.

The Edmonton line followed up faster and checked back in better style and the hours very seldom came real close to looking. Banford, Campbell and Powers were the most noticeable for the winners and Hampton, Ritchie and Kent were the Strathcona stars.

The first goal took the lead to the annex. Strathcona got away fast at the start but failed to keep the pace up long. Campbell all but scored after four minutes' play but the shot was high and a minute later Hampton rushed the Edmonton goal, but Grady was right on the spot.

These are the outstanding features of the play for the first half. After being in possession most of the time but never got through until almost fifteen minutes had elapsed when Banford located from the side. Things came Edmonton's way most of the time that was needed to secure counter No. 2, though Hampton and Kent were noticeable with some fine hand work, but never got dangerously close.

It took Edmonton about five minutes actual playing time to register the next score, which they took from the side on a pass from Hampton. The third counter was purely a good luck score. Powers getting it at cover-point, Edmonton 3, Strathcona 0. This figure remained this way until half time.

Strathcona's half was practically thirty minutes of lifts, though here and there the monotony was broken and both sides came near scoring some scrimmage in front. There was one fully and Edmonton secured it. Banford being responsible after about ten minutes' play.

The best good-goalsure procedure throughout the contest was by W. Forbes of Wetaskiwin had an easy time of it. None of the players were penalized and, considerable action was made in the matter of offside.

The real outstanding feature of the contest was the number of delays. There were two long waits in the first half while McKee knelt up to get on the forehead where the puck grazed him. Campbell was responsible for the second stop. He pulled up with a game leg on a check by Kent but went on and failed to make the game. A third delay was due to Ritchie's suspenders collapsing. Both hands being needed to handle his stick he had to stop to replace them in the room for repairs to prevent a some downed down upon in most all sports. The fourth stop was in the second half when Johnston's forehead came in contact with the puck and a few minutes were needed to make a real riddypops.

The teams: Strathcona. Goal—Edmonton. Goal—Grady. Points—Johnston. McKee. Cover—Powers. Hampton. River—Deaton. Ritchie. Centre—C. Banford. McKee. I. wing—Campbell. Kent. r. wing—C. Blomfield.

HOCKEY.

Houghton, the champions of the International professional league, were beaten in the final game by Calumet.

Stratford landed the O.R.A. junior championship from Lindsay and Berling got away with the intermediate laurels from Collingwood. Berling lost one game all season.

Houghton are endeavoring to arrange a game with the Kenora Thistles for the championship of North America.

The Calgary intermediates are \$120 to the head on the season's operations.

Regina papers are calling the senior goal tender "Chesty" Kain now. The clerks in a gent's furnishing store.

Regina is endeavoring to have the crack Winnipeg team play two games at the Saskatchewan capital this week. The Calgary seniors and intermediates are playing two games this week for medals donated by Watson Bros.

The local intermediates would like to have at least one more home game before the ice goes. They were at big expense this year and only had two pay games at home.

The experts agree that the professional hockey played in the international league is hardly faster than the Pacific Canada hockey league article as put up by Ottawa and Montreal Wanderers.

The Montreal Wanderers would have had little show against Kenora. They play a four man combination which is usually not a winner on a small rink and especially on soft ice.

A benefit fund for Mrs. McCourt mother of Bud McCourt, who was killed in a hockey match at Cornwall a week ago has been started, and donations are being received from hockeyists all over the Dominion.

BASEBALL.

Duluth starts on the spring training trip with twenty players.

Vancouver team will play its first practice match on Good Friday against one of that city's amateur teams.

There are no old-timers on the Vancouver payroll. The players are all young, and give promise of being stars of course.

Vancouver has signed contracts from ten players and has options on ten others. This is about half that will be asked to report.

Some of the players looked like the catcher Smith is the only one who was left side of the pitcher's box. The balance are recruited from numerous minor leagues.

Reggie has at last been asked to the fact that a fast baseball team is a good advertisement for a city and the catcher will work hard in hand with the pitcher to organize a professional league in Saskatchewan.

Vancouver management will be quite liberal with the local team in the matter of suits and baseball outfit. The Vancouver team is to have two complete outfits of uniforms. When playing on the home grounds, the local club will wear a blue uniform that is, until the first they slide for a base. In all matches away from home the team will be arrayed in a neat blue and maroon costume.

Lethbridge's Great Fielder. — Lethbridge, March 29. — Manager Morrison has apparently abandoned the idea of mobilizing at St. Paul, and now wishes to have his team start his tour from Lacrosse, Wis. Assembling there on April 1, he plans games with Le C. O. team which is in the Wisconsin State League, on April 2 and 3. The proposed itinerary, then runs, Winona, Wis., April 4 and 5; St. Charles, Minn., April 7; Fort Snelling, Minn., May 12; Winnipeg, La. to John, and he wants to come west, if railway rates are agreeable, via a portion of the Northern Cooper circuit, playing with some of those teams.

The manager states that he has signed William Foster the famous Fargo outfielder, usually known as "Babity" Foster, whose fielding average last year was .955, and who batted .250. He is also securing contracts from half a dozen other players and is now on the trail of two of the best men in the Northern-Cooper league.

Bribes for Statemen.

Alberta.—Yesterday afternoon Mr. Alf. Fisher dropped down to the City of Peace to pay his license. While waiting for business to be transacted he got into conversation with three gentlemen by name of Clarke, English and McKee.

The second gentleman being chief of the creek catchers and the first and last being two well-known aldermen: Mr. Fisher being present they discussed the fish features and Mr. Clark mentioned the fact that he

would give a five spot to the man of the Calgary team who makes the first home run. The chief then got busy and went on better offering the same sum to the man who hits the first time batter. Mr. McKee thought for some time and then asked where he was going to put off at. "Fid" pointed out the fact that occasionally a man is known to steal "A Base." Mr. McKee then got busy and did the good act, consequently one star man on the Calgary team has a chance to pick up fifteen dollars and they all have a show for the five spot.

ONOWAY.

A very pretty wedding took place at the home of Mr. and Mrs. Beaupre, when Margaret Towson, their oldest daughter, was united in matrimony to Mr. Henry Green, one of our respected and progressive young householders. The knot was tied by Rev. G. F. Hopkins of White Horse Lake, while Mr. Norman Priestly was his assistant, who also took part in the ceremony. Practically the whole community had put aside work for the afternoon in order to be present. After a bountiful repast some neat speeches were made by Messrs. Hopkins, Grumard Priestly, and appropriate replies by Messrs. Scott Green, and Beaupre. Mr. Beaupre is our oldest resident, our genial postmaster, and our J. P. This is the second happy pair that have gone forth from "Beaupre House" and we have heard it whispered that there are more to follow.

District News

ATHABASCA LANDING.

Editor Bulletin.—I desire to correct some news which has been published in Edmonton. First, there has been no townsite survey on the north side of the river and consequently no lots could have been sold; or if any were sold it was a swindle. You have heard, no doubt, about a Liberal Association being formed here. It is usual when such is done to publish the facts, and invite all the people of Liberal disposition to be present. This meeting held a few nights ago was done by a few young fellows, had no word of what to any of the old timers. Persons of weight and age who had lived in the town did not know anything about it, and it was done by the few who were taking the unbusiness business for selfish purposes, and not for the good of the party.

The building is pretty lively just now. There are a number of new houses and a new machine. Every for a huge steamer for the Mackenzie River is being brought here. The new building is owned by the Government and is being used for a warehouse for oil and other goods.

Quite a few farmers are coming to the GAL 5 and some are taking up land north of the river.

VIQEVILLE ITEMS.

A Jew peddler was doing up the town without a license. He was brought before Judge Fleming and fined \$30 and costs. Rather than go to the Fort he paid his fine.

Owing to the resignation of Dr. Goodwin as councillor a by-election was made necessary. Ben Tottien was elected by acclamation.

There is an agitation on foot to build a dam on the Vermilion river so that in case of emergency they could fall back on it for water supply.

The 17th of Ireland passed off quietly in town. A fine sermon was preached in St. Thomas church by St. Patrick's. Quite a number of strangers were present.

Vincent Bell opened his photo studio last Saturday in B. Tottien's store, opposite the Queen's hotel.

The C. N. R. will add 200 feet to the present platform near the elevator to accommodate the farmers in loading up men. The necessary stone work is being instructed to write the C. N. R. to the crossing opposite Main street. Tenders are out for four lots for the best market square. The contract is for the stone work of land from Oscar Johnson at \$25 a year for a nuisance ground.

Twenty-five extinguishers have arrived and they are being distributed in the different parts of town for fire protection.

A complaint was laid before the agent at Red Lake that a certain man named Louis sold liquor to the Indians. The outcome of it was that Louis had to sell a bill of \$200 fine.

The gasoline engine and coal digger outfit had arrived at last and it was expected that they will have something about the real value of coal mines in Vegreville.

J. A. Courtemanche, of Edmonton, was here and he is bringing in his new outfit for digging wells. He is going to open out at Father Baurier's.

Next Door to Merchants Bank

SOCIAL.

Miss Therese Fowles, of Hastings Ont., who has been visiting her cousin, the wife of Judge Stuart, Calgary, has arrived in the city and is the guest of Mrs. T. H. Whittle.

Miss Kathleen Graydon, who is attending St. Hilary's College at Calgary, is going to spend her Easter holidays with Miss Roy Pickering, of Canmore. Miss Connie Rhodes and Miss Emily Bown, who are at the same institution, come home in the first part of next week to spend their holidays at home.

Mrs. Bulyea, holding her usual monthly reception at Government House yesterday afternoon, welcomed a large number of callers who always enjoy this pleasantly informal afternoon with the gracious chaperone of Government House. Mrs. Bulyea was a charmingly attractive gown of white chiffon and taffeta with rich embroidery. In the tea room the honors were done by Dr. Scarlett-Syng and by Mrs. Riddell, who was handsomely attired in light blue silk and black picture hat.

The tea table was, as always at Government House, lovely in the artistic simplicity of its arrangement, a high vase of glass in quaint jar design, holding the rich American Beauty roses and asparagus fern. Candles, with harmonizing crimson shades overlaid with filigree complemented an attractive scheme of decoration.

The marriage of Miss Lottie Ross to Dr. J. Douglas Maclean took place very quietly at Nelson, B.C., on Wednesday morning. The bride was charmingly attired in a light blue travelling costume with hat to correspond. After the marriage ceremony Mr. and Mrs. Maclean left by train for Los Angeles, from which point they will shortly sail for Australia and New Zealand, an extended honeymoon trip being planned.

Mr. and Mrs. James Ross are expected to arrive in the city to-morrow. They will be the guests of Mr. and Mrs. Holland Ross for a time until they make more definite plans for the summer.

Personal.

W. J. Greave, of Mountfield and Greave, has gone to the Coast on business.

J. Brandon, one of Edmonton's implement dealers, spent a couple of days in Calgary in the early part of the week.

Mr. and Mrs. C. J. Robert and Miss Flaherty left yesterday for Europe. They will spend a couple of months in Montreal en route and will be absent probably six or seven months.

W. Irving and R. M. Hanson were Calgary visitors on Wednesday.

R. Taylor was with friends at Calgary a couple of days this week.

D. M. Pardee, of the Attorney-General's department, left on Tuesday for Calgary and will be absent a few days.

George A. Reid of the Land Titles Office left yesterday afternoon for the Coast where he will spend several months for the benefit of his health.

H. H. Robertson, of Robertson and Dickson, went to Vegreville Wednesday night, to attend a session of the Supreme Court.

J. G. Edgar, secretary of the Dominion Brokerage Co., was up from Calgary yesterday.

Robt. Swan, of Lamont, is in the city today on a business visit, and returns tomorrow.

A. Knott, of New Lunnion, is paying Edmonton friends a visit today.

Dr. J. W. T. McEachern, of Newell, was in Edmonton for a couple of days this week.

J. R. Richard of the A. S. Weeks Co., returned yesterday from a business trip to Wetaskiwin and Camrose.

G. M. Muir of Kingston, who has disposed of his business in that city, arrived in the city to-day, and will open out in the mercantile line if

prospects are right.

A. Williamson Taylor of the W. B. Weeks Co. was one of the speakers at the Conservative club banquet at Leduc on Monday.

H. V. Wilkinson, of the Westinghouse Co., Calgary, is in the city to-day at the Alberta.

Dr. Aylen, of Fort Saskatchewan, was an Edmonton visitor yesterday.

D. E. Riley, a real estate and insurance agent from High River, is in the city for a couple of days at the Alberta.

J. K. Gray, of Millet, is at the Alberta to-day.

W. Cameron and H. A. Meredith, of Vegreville, arrived in the city yesterday and are stopping at the Alberta.

J. Forbes Ellis returned yesterday from a two weeks' trip down the C.N.R. as far as Battleford.

C. B. Crawford, of the Bank of Commerce staff, at Red Deer, was in Edmonton yesterday.

T. J. Klein, of Spring Lake, was a guest at the St. James yesterday.

R. W. K. Cousins, of Aliz, is a guest at the Castle to-day.

ENERGETIC, capable business man (50), married, used to grocery in England, desires situation either in a store or any business capacity, calling May 3. W. G., 411 Market Place, Wexford, Manchester, England.

DR. V. G. MULVEY,

Dentist.

(Late Middleton Hospital, England) Office, corner Namayo and Boyle, over Armstrong's Drug Store, open evenings.

NOTICE.

A meeting will be held in Strathcona at 8 p.m. by warehouse union members, Mr. W. Snow; subject to be discussed "Farmers' Shipment of grain."

THE VIAVI CO.

will shortly open their offices in Edmonton, meanwhile their temporary headquarters are at the Hotel Cecil, Room 18. Hours, 10 to 5 p.m. They will be pleased to meet their patrons.

Health talks given every Monday at Mrs. McCully's Art Studio, Second and Jasper, Lee Block, at 3 p.m. Ladies cordially invited.

MRS. COLIN MACKENZIE,

Manager.

Sealed tenders addressed to the undersigned and endorsed "Tender for Postal Station 'B,' Winnipeg, Man." will be received at this office until Thursday, April 4, 1907, inclusively, for the construction of a Post Office Building at Winnipeg, Man.

Plans and specifications can be seen and forms of tender obtained at this Department and on application to Mr. J. W. Greenfield, Resident Architect, Public Works Department, Winnipeg, Manitoba.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tender is not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

FRED. O'NEILL,

Secretary.

Department of Public Works, Ottawa, March 18, 1907. Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

SEALED TENDERS.

Sealed tenders addressed to the undersigned and marked "Tenders for Debentures," will be received up to and including Monday, March 25th, 1907, for the purchase of debentures of the St. Anthony Catholic Separate School District of the Town of Strathcona, Alta., issued in pursuance of a by-law passed by the board of trustees of the said school district on June 18th, 1906, authorizing the raising of \$5,000 to be expended in the building of a two-story brick school in the said town of Strathcona; said debentures to be repayable in thirty (30) equal annual instalments on the first day of March in each and every year and to bear interest at five per cent. per annum.

The highest or any tender not necessarily accepted.

J. A. CONNELLY, Secretary.

Strathcona, Alta.

In the Press Gallery

(From our own Correspondent in the Press Gallery.)

Ottawa, March 14.—The new Dominion Lands Bill came up for second reading today.

Railway Reserves Available.

In explaining the bill the Minister of the Interior said that the land grants to the railway companies had been satisfied the balance of the odd numbered sections reserved for each selection; reverted to the crown completing some 90,000,000 acres. With this even numbered sections still remaining the government had about 90,000,000 acres to dispose of within the known agricultural belt. That this was so the country had to thank the present government which had terminated the policy of granting lands to railway companies and while doing so had made provision for the railway construction at 4000 miles per mile railway had been secured by the present government at the expense of 1,000,000,000.

Exemption Privileges.

The plan proposed in the bill was to permit homesteaders to purchase another quarter on condition that he farmed it.

Hon. Thomas Greenway of Limerick, Manitoba, said he would have to oppose the measure as he feared the farmers of Manitoba would be attracted to move westward in search of available lands.

"Les Miserables."

The remainder of the afternoon and most of the evening was occupied in a kind of oratorical funeral procession by Opposition gentlemen with Hon. Geo. E. Foster as chief mourner. Mr. Lake of Que. Appeals was given that reference had been made to reading of the bill as some change in the record of the former government. He took no objection to the second reading of the bill as some change in the Land Act was necessary. He opposed the view of Mr. Greenway and contended that the bill conferred too large powers on the Minister of the Interior. He devoted the remainder of his attention to the land clauses of the Autonomy bills.

McCarthy's Troubles.

Mr. McCarthy of Calgary had similar pains because allusion had been made to the history of his own party's handling of interior lands. He passed on the argument that the pre-emption privilege was not given to the purchaser, but to homesteaders only. He wanted the settlers' rights defined and enforced with the rigidity of law, independent of conditions of consideration.

Perley's Remarks.

Mr. Perley of Argenteuil, Ont., rose to voice the somewhat peculiar grievance that the act did not fix the maximum price which could be charged for pre-emption land. Six weeks was not a long enough period in which to advertise western timber lands for sale. It did not afford Ottawa, he said, a sufficient chance to tender. Mr. Perley is a lumberman and his interest was not altogether incomprehensible.

Roche's Apprehensions.

Mr. Roche of Marquette, Man., contented himself chiefly with landing Mr. Greenway and censuring Mr. Oliver. With the principle of the bill he had not serious fault to find but believed that the minister's purpose was to attract people from Manitoba to the Interior. He feared that the lands in question were worth from \$10 to \$20 per acre and the act fixed a maximum price of only \$3 per acre. The people might get the land too cheap.

Foster's Distrust.

Mr. Foster, too, was distressed. Reference had been made to the former regime which he thought was a superior administration to that of Hon. Alexander Macdonald. He was still more troubled that Liberal members had not as yet participated in the debate but had left the platform mainly to the Opposition gentlemen. He thought there was no demand for pre-emption and that the result would be a lighting of population, not an increase. The lands he desired were Dominion lands and the bill was to the bill was to bestow them upon the "favored few" who reside in a certain section of the country. The homesteader was the recipient already of the "princely gift" of 160 acres and it appeared to be an outrage to Mr. Foster that anyone should permit such fortunate individual to get more land. He completed the case by saying that homesteader was not required to make any return to the people for the land—this regardless of the fact that the pre-empted land must be bought and that the money goes into the Federal treasury. He was willing that the

Talking Before the Times.

Mr. Wilfrid Laurier pointed out that the initiative display to the Opposition gentlemen was premature. The bill was a lengthy and comprehensive one and yet the House had been prevented from going into committee for more by an off hand condemnation before a single clause had been considered. If the Liberal members had been allowed it was because they reserved their judgment until they had had an opportunity to examine the measure. He thought it was presumptuous to declare an opinion as Opposition members had done without an examination of the bill. The granting of pre-emption could not cause a shifting of population because the settler would leave his present farm only if he could sell it, and if he sold it the purchaser would reside upon it. While the Opposition members had expressed the provisions of the bill as too drastic the member for Limerick whose opinion they appeared to have high regard had condemned his own scheme as too drastic.

Reverend's Disposition.

The leader of the Opposition followed the example of his friends in pointing out allusions to the former government and in condemning the terms of the Autonomy acts. These appeared to be the main points of the gentlemen. He did not attack the details of the bill.

The House went into committee to consider the bill clause by clause.

Mr. Lake of Que. Appeals was given that reference had been made to reading of the bill as some change in the record of the former government.

He took no objection to the second reading of the bill as some change in the Land Act was necessary.

He opposed the view of Mr. Greenway and contended that the bill conferred too large powers on the Minister of the Interior.

He devoted the remainder of his attention to the land clauses of the Autonomy bills.

Mr. McCarthy of Calgary had similar pains because allusion had been made to the history of his own party's handling of interior lands.

He passed on the argument that the pre-emption privilege was not given to the purchaser, but to homesteaders only.

He wanted the settlers' rights defined and enforced with the rigidity of law, independent of conditions of consideration.

Mr. Perley of Argenteuil, Ont., rose to voice the somewhat peculiar grievance that the act did not fix the maximum price which could be charged for pre-emption land.

Six weeks was not a long enough period in which to advertise western timber lands for sale.

It did not afford Ottawa, he said, a sufficient chance to tender.

Mr. Perley is a lumberman and his interest was not altogether incomprehensible.

Mr. Roche of Marquette, Man., contented himself chiefly with landing Mr. Greenway and censuring Mr. Oliver.

With the principle of the bill he had not serious fault to find but believed that the minister's purpose was to attract people from Manitoba to the Interior.

He feared that the lands in question were worth from \$10 to \$20 per acre and the act fixed a maximum price of only \$3 per acre.

The people might get the land too cheap.

Mr. Foster, too, was distressed.

Reference had been made to the former regime which he thought was a superior administration to that of Hon. Alexander Macdonald.

He was still more troubled that Liberal members had not as yet participated in the debate but had left the platform mainly to the Opposition gentlemen.

He thought there was no demand for pre-emption and that the result would be a lighting of population, not an increase.

The lands he desired were Dominion lands and the bill was to the bill was to bestow them upon the "favored few" who reside in a certain section of the country.

The homesteader was the recipient already of the "princely gift" of 160 acres and it appeared to be an outrage to Mr. Foster that anyone should permit such fortunate individual to get more land.

He completed the case by saying that homesteader was not required to make any return to the people for the land—this regardless of the fact that the pre-empted land must be bought and that the money goes into the Federal treasury.

IMPERIAL SHOE STORE

Corner of Jasper & Second Street

OPENING DAY! ON SATURDAY MARCH 23.

We beg to announce to the people of Edmonton and vicinity, that we are now opening a First-Class Shoe Store, where we will endeavor to supply everyone wants in all kinds of reliable footwear. We cordially invite you and your friends, to attend our Formal Opening on Saturday Afternoon and Evening.

We have arranged for some good Orchestral Music which will be as delightful to the ear as our show of Footwear will be to the eye. Let us introduce our stock as follows:

The Invictus Shoe

For Men, Women and Boys. Manufactured by GEO. A. SLATER, Montreal. This line alone embodies all that is best in the shoe-making art. Up-to-date lasts, first-class stock, workmen who know how, and under the direct supervision of Geo. A. Slater, one of the best shoe-makers on the American continent.

The Duchess Shoe

For Women is made exclusively for us in a variety of styles and lasts to suit the fads and fancies of the fair sex, and includes all the newest creations in footwear.

We have a corner in our store for Children, we would make a mistake if we hadn't. Here is where we show.

THE Classic Shoe

For the little ones for fine wear, also a line of WESTONS, good wearers for heavier use, together with several other lines that we deem A. 1.

Hart Shoe

For Boys and Youths is a winner, we have it, also Little Men's Boots for ages from 5 to 10 ten years. Broad toes and low heels, the kind they ought to wear.

In Ladies Slippers, Oxfords, Bustins and Congress Shoes. We have a very complete range from which to purchase what you may need in these lines.

We have been delayed in opening a long time on account of poor freight service, but the bulk of our stock is now here, but should you find us short of any lines, rest assured they are coming, as our aim is to keep a complete stock.

We might just mention that this is a new venture for us, but we are not new people in this city. Having for the past four or five years been serving the public with the late firm of McDougal and Second during which time, we hope we have gained and now still merit your confidence.

A GOOD WORD is in our estimation a BIG BOOST in business. Some of our friends have already 'boosted' us, and as time rolls along we hope to return the kindness by helping people to walk easily, comfortably and economically in this portion of Sunny Alberta. Come in on Saturday and afterwards too.

TERMS CASH

The IMPERIAL SHOE STORE !

M. W. WEBB, MANAGER

FORT BASKATCHEWAN.

Mr. Eugene Clark of Vermilion, is renewing acquaintances at the Fort this week.

Austin, son of Mr. Geo. Kimball, left this morning for Washington Territory.

The hockey team from Agricola played a game with the Fort team on Wednesday. The first half ended 1-0 in favor of the Fort; final score 3-0 favor of the Fort. Mr. H. Gidley was referee and the game was noticeably free of roughness.

The Women's Home Mission Society met in the manse today, Wednesday. An instructive paper was read by Mrs. Donald, on Foreign Missions. We are pleased to report that Mrs. Forbes, president of the society, was well enough to take the chair.

Our men citizens have under consideration the formation of a social club. At a meeting held on Wednesday night, a committee was appointed to procure suitable premises. It is such can be secured the club is an assured fact, with a charter membership of at least forty.

Mr. W. H. White, Dominion Homestead Inspector, passed through the Fort this week, and reports no serious suffering in the district over which he travels. The fact questioning with the farmers was easy, as the Dominion Government had given the settlers privilege to cut wood free, on any Dominion lands, and coal was within easy travelling distance to almost all. The Galicians being especially well provided for in food and clothing.

The telephone poles for the Government Trunk line are being rushed to the siding of the railroads.

On Monday afternoon a most peculiar accident happened, which might have been disastrous. A Mr. Nash, well digger, whilst in the act of taking a horse blanket out of a sleight, inadvertently pulled the trigger of a loaded gun which was lying in the sleight, and shot Mr. James Kelly in the leg, tearing the flesh. The ball then entered the horse's leg, flattening itself against the bone. Mr. Kelly is not seriously hurt and the bullet was extracted from the horse later on. Mr. Schneider is owner of the horse and thinks the accident was caused through carelessness.

Rev. A. F. Forbes and Mr. John Paul visited the Sturgeon on Thursday last for the purpose of attending a social in the Presbyterian Church at that point.

A quiet wedding took place at the Manse on Thursday morning last, when Mr. William James Simpson and Miss Grace Stella Walker, both of Comatonia, were married. Rev. A. F. Forbes officiated.

Mrs. E. Wilmarth entertained a number of young people on Wednesday evening, her guest, Miss Ethel Symington being the raison d'être of the occasion.

NEW Spring Goods
— AT —
Hudson's Bay Stores

IN THE PRESS GALLERY

(From Our Own Correspondent in the Press Gallery.)

Ottawa, March 12th—Another desk was draped in black yesterday and bore a wreath in token of respect from the members to the late Mr. Thomas Martin, member for North Wellington.

New Immigration Arrangement.
Mr. Lavergne inquired whether it was true that on the abrogation of the North Atlantic Trading Company contract an order in council had been passed that a bonus of ten shillings per adult and five shillings per child would be paid to booking companies booking immigrants to Canada. The Minister of the Interior replied that this was so, and Mr. Lavergne gave notice that he would bring the matter up on Thursday next.

The Progress of the Yukon.
Mr. Alfred Thompson, of the Yukon, addressed the House on the progress of the far northern mining camp. The day of the Yukon, he declared, was not past by any means, but future development would yield results surpassing those already achieved. The great gold camp of Canada would continue to be the Yukon.

Our Best Customers.
The population of the Yukon, he reminded the House, were splendid customers of Canada. They produced no food, clothing nor manufactured articles and bought nearly their entire requirements in these lines from the people of the other portions of Canada.

The System of Local Government.
The government in the Yukon consisted of a council of ten members, one half appointed by the Federal Government and one half elected. The commissioner of the district presides as chairman. He urged that the body be made entirely elective.

To Aid the Prospector.
He wanted the Federal Government to subsidize light draft boats for navigation of the smaller streams for the accommodation of the prospector, whose efforts had made the Yukon what it is.

Yukon Wheat Equals the Best.
He had presented to the House a sample of wheat grown in the Yukon and vied the analysis of the Canadian Agricultural Department as to its quality equalled that of the best grown wheat. An expert special station would demonstrate that could be done along the line of wheat growing.

As the government telegraph line had been frequently interrupted, he suggested the installation of a wireless system.

While the obnoxious mining concessions had been cancelled, the land was not yet thrown open for the guano.

The Wonder of the World.
Mr. Oliver, replying, said the gold output of the Yukon had been the wonder of the world, and had changed the popular notion that the hinterland of Canada was a snow-bound waste. The debt of Canada to the Yukon was not measured alone by the gold output, but by the several of public opinion of the value of our great north land.

Elective Council Forecasted.
While it was "not always" certain that a change in the form of government would remove all grounds of complaint, the speech of the member for the Yukon had shown that the country had made progress, which guaranteed the Yukon as a permanent and prosperous district.

While the change was not possible at the present session of Parliament, yet if the progress continued, as is expected, the pending elections would doubtless be the last held under the present conditions. He reminded the House that last session the opposition had invoked the authority of the Federal Government to set aside the authority of the Yukon Council in

respect to the expenditure of money.

The Cancellation of Leases.
Hydraulic leases had been granted some time since to enable low-grade property to be worked by the employment of large capital. Several holders of the concessions had failed to fulfil their obligations, and some six leases had been cancelled on account of this. But, while the government recognized the necessity of enforcing the terms of mining leases, it also recognized the damage which would be done if the cancellations were interpreted abroad as antagonism to capital or violation of grants made to investors. Peaceable settlement had therefore been offered the concessionaires as an alternative to being ousted by law. Two had accepted settlement and the remaining four cases were before the Exchequer Court. The decision of this court would decide whether or not the cancellation was effective and whether clear title could be given to new applicants or the land. The settlement of this legal point had delayed the opening of the lands affected by the cancellation of the leases.

Mr. Foster's Views.
Mr. Foster wanted the expenditure on the Yukon cut down; ensured the Government for constructing and operating the Yukon telegraph line as a Government enterprise instead of turning it over to a corporation; and cited the letter of a clergyman, as authority for the contention that Dawson City music halls, licensed by the Yukon Council, was unfair discrimination against the howdy houses in Klondike City, for all of which, of course, he held the Government accountable.

EDMONTON BULLETIN

DUNCAN MATHIAS.

Manager

FRIDAY, MARCH 22, 1907.

SHORTER HOURS FOR TRAINMEN.

The railway companies of the land have come in for a good deal of justifiable criticism in the last ten years for the long hours which those responsible for the dispatch and running of trains were forced to serve per day. There is no doubt that this was in many cases the result and even the direct cause of shocking railway accidents. The evidence taken by coroners' juries has given abundant proof of this.

In light of this state of public opinion the recent decision and order of the Railway Commission fixing a limit to the hours during which railway men responsible for the running of trains shall be continuously on duty per day will be received with merited approval. The public will appreciate such an innovation as an important factor in securing safety of transportation. The Railway Commission is a court that the nation could not spare and is one of the triumphs of the positive constructive statemanship of the Liberal administration of Sir Wilfrid Laurier.

ONTARIO AND IMMIGRATION.

Ontario has a provincial bureau of immigration, the chief of which appears to have a sense of humor. Before the agriculture committee a few days since he gave out that immigrants were diverted by agents at the sea ports from going to Ontario and that this supposed discrimination had been followed up by the appointment of local agents in the province for the purpose of sending people to the west. The matter was brought up in the House on Thursday, when the Minister of the Interior assured Mr. A. C. Macdonnell of South Toronto that "Mr. Southworth is under an absolute misapprehension of the facts. There is no intention, no policy on the part of the Dominion Government or its immigration department to direct settlers from Ontario either at ocean ports or elsewhere. On the contrary the Dominion Government during the last year made considerable expenditures with a view of securing suitable locations for settlers within the province of Ontario thereby responding to the demand that has been made from that province for an adequate supply of farm labor during the last few years.

During the present year the Dominion Government has in pursuance of its experiment of last year and according to the needs of the province as it understands them, appointed a number of agents not only in the vicinity of Toronto but throughout the province, as a matter of fact has appointed two agents in each county on the average for the purpose of looking within the range of their knowledge such suitable farm labor as may be available from the immigrants coming from the old country, which farm labor is directed or is intended to be directed to these distributing agents from the ocean ports. So far from the agents alleged to be diverting immigration from Ontario to the Northwest they are appointed for the sole purpose of securing suitable locations in Ontario for immigrants arriving at ocean ports destined for that province who desire occupation in farm work."

MCBRIDE'S HOLD UP.

The announcement that Premier McBride will contest the claims of the G.T.P. Company to 13,000 acres purchased by them from the Metis and Indians for terminal sites is apparently the price he is to pay for the great rival of the G.T.P. in return for aid in securing the election of the McBride government in the recent provincial contest. Every obstacle placed in the way of the G.T.P. is an advantage to the C.P.R. The public both of B.C. and Alberta have a very material and legitimate concern in the inevitable consequences of delay in the completion of the G.T.P. to the tidewater of the Pacific. Our hope in the Oriental market is embarked on the scheme of the G.T.P. railway. That the litigation will be long and tedious and carried from court to court until the final authority has been invoked is the necessary assumption from the enormous interest and resources of the litigants.

The interests at stake are not only the cash value of the land in dispute—that include also the interests of the G.T.P. Company in completing its line at the earliest date and the development of the vast territory of infinite mineral and agricultural possibilities that lies between Edmonton and the Rocky Mountains. Any act that delays the construction of the G.T.P. railroad continues the monopoly of the C.P.R. in the transportation field of British Columbia and in trans-Canadian traffic.

So much as to British Columbia. The province is 1,000 miles long by 800 wide and is traversed by one railway across it. The proposed route of the G.T.P. will traverse a territory equally rich in minerals and lumber to that through which the C.P.R. runs, and far surpassing that region in agricultural resources. When the G.T.P. passes through it will duplicate the development and prosperity of the southern portion of the province. The whole province stands to double its population and wealth by the construction of the road. The profitable trade that can be established with the East when the prairie provinces are afforded railway connection to the seaboard is jeopardized by every delay in securing that competition, and that delay seems to be prolonged by Mr. McBride's threat.

POLICYLESS OPPOSITION.

The sharp criticism launched by the London Times against the Opposition in the Imperial Parliament should form an object lesson to the Conservative Opposition in the Canadian Parliament. The Times criticizes the Unionist party for the want of any alternative policy. It says:

"The Unionist party cannot hope for success if it allows itself to become a party whose only political conception is that of resistance to the proposals of the Government, however mischievous those proposals may be, and however necessary it may be that those proposals should be strenuously resisted. If it wishes to gain the confidence of the nation, it must not merely expose the demerits of the legislation that others propose it must be able to at least to indicate better solutions of its own, and frame a positive and constructive policy of its own."

This criticism exactly gauges the position of the Opposition at Ottawa today. For eleven years the Conservatives have been in Opposition at Ottawa, and during those eleven years, aside from the purely negative course of opposing whatever the Government has proposed, what service have they rendered to the people of Canada? What single constructive idea have they contributed to the moulding of the nation's future? What part have they borne or tried to bear in making broader and firmer the foundations of our national life? Or what suggestions have they offered for hastening or strengthening the edifice which is being erected on those foundations? What policy have they elaborated and advanced for the

better utilization of our national opportunities? What legislation have they offered for the better government of our people? What measures have they advocated for lessening the opportunities or lessening the inequalities of the conditions of life in Canada?

Aside from mechanical denouncement of any and every proposal brought forward by the Government, from an unquestionable and undying hunger for office, and from unwavering loyalty to the high protection which crippled that country with what principles do they stand identified? Is this all the country is entitled to expect from an Opposition? Admitting that the business of an Opposition is to oppose, is an Opposition to be considered as having discharged that duty by the mechanical function of talking and voting against whatever measures the Government proposes?

Such are not the limitations usually placed upon the functions of an Opposition, nor the qualifications ordinarily considered sufficient to entitle a party to claim the privilege of governing the country. A party which has no policy of its own to offer cannot expect either to generate much enthusiasm or to command much respect when it avails itself of the policy of its opponents; and if a party cannot develop and promulgate a policy when out of power there certainly is mighty little reason to expect that it will be able to do so if placed in power.

UNLESS AND UNTIL THE CONSERVATIVE PARTY OF CANADA FORMULATE AND CHAMPION A POLICY FOR THE GOVERNMENT OF THE COUNTRY THEY CAN ASPIRE TO NO MORE DIGNIFIED ROLE THAN THAT OF POLITICAL VANDALS, MAKING FOR THE DESTRUCTION OF WHAT THEY CAN NEITHER AMEND NOR REPLACE, NOR NEED THEY EXPECT THAT THE PEOPLE OF CANADA WILL PERMIT THE MANAGEMENT OF PUBLIC BUSINESS TO FALL INTO THE HANDS OF SUCH IRRESPONSIBLES.

NOTE AND COMMENT.

It takes President Roosevelt to scrub the dirt of the railway magnates with "Square Deal Soap." "Wall Street white wash" is no go any more.

The railroads need legislation to protect them from themselves, as much as the people need it to protect them from the railroads.

STRATHMORE'S MAYOR TO CITY COUNCIL.

Mayor Mills Presents a Letter at the First Meeting of the Weekly Constituted Aldermen.

On the occasion of the elevation of Strathmore from the stage of town to that of city, the mayor of the city government, Mayor Mills, at the initial meeting of the city council, addressed a letter to the aldermen suggesting some steps that should be taken to promote the interests of the city. The letter was considered clause by clause.

An Assessor Wanted. The first question to which attention was directed was the appointment of an assessor. It was necessary under the new assessment system to appoint such an official at once. A person should be secured who was experienced in land values and also of good judgment. A copy of the classification scheme of the City of Edmonton had been procured by the mayor, and this would be of great value in fixing the rates in Strathmore.

The council agreed that the assessor's salary should be \$600, and that applications be called for at once, to be in by the end of the month.

Voted on By-laws. The next matter to which attention was directed was the submission of the by-laws for the money for payments on the city property secured for the new city hall and for the municipal hospital.

The council decided to have the by-laws prepared at once and a vote taken at the earliest date possible.

City Commissioners. Government by commission was another important question in the municipal affairs. The time had now passed, the Mayor said, when the municipal council could be left with the hands of the committees. It was unreasonable to expect aldermen to give all the time necessary to the proper administration of the city's affairs.

Some decision on this matter must be arrived at before the new procedure by-law was passed. There was no time to be attached to the council, for they had attended more meetings in the same period of time than any other previous council. Other members had legitimate excuses for being absent from council meetings, and this added to the cumbersome nature of the present system. The council discussed this question

Mayor Mills showing the necessity of having one commissioner, and in all probability two would be found necessary—and perhaps three. One man would be required to give his entire time to the public works of the city. The recommendation was handed over to the finance committee, who will make a report.

A Police Board. The recommendation for the appointment of a larger police force owing to the increased boundaries of the city was left over for the present.

A Hospital Board. The appointment of the hospital board under the city charter was referred to. The charter called for its composition to be three members of the council and four civilians. It should be appointed shortly, as it would soon be required.

New Nuisance Grounds. The urgency of procuring immediately a new nuisance ground was dealt with. The lease for the present one expires in a few days. The Mayor hoped every councillor would constitute himself a special committee with the object of obtaining a suitable place.

Mr. Allen, who owns the present ground, refused to renew the lease of his property, but said he had a portion of the McInlay Farm, two and a half miles from the city, which he would grant on the same terms. The Sanitation Committee were appointed to look into the matter.

Cheques Not Properly Certified. The last question to which the Mayor referred was the passing of accounts without their having been signed by any but the chairmen of committees. As a result of this practice he was seriously considering whether he should refuse in future to sign cheques not properly certified.

For the Easter holidays, March 22nd to April 1st, the Canadian Pacific Railway announce a rate of one fare and one-third for the round trip. Tickets on sale March 27th to April 1st inclusive, good on return until April 1st.

An innovation in furnishings of banks west of Winnipeg has been introduced by Mr. T. F. R. Jackson, manager of the Traders' Bank of this city. It consists of a number of safety deposit boxes which have just been built in the bank vault for use of customers by the Office Specialty Company. The boxes have a double combination, the master key being held by the bank and the other by the user of the box. There

is also a third lock, this being on the inside box, which is secured in an outside cover of 1-4 inch steel. Already over 40 boxes have been placed in position, and a number have been taken up.

THIS beautiful property lies directly south of the Grand Trunk Pacific Yards and has frontages on Namayo Ave. and First St. The proposed extension of the Street Car route along Namayo Ave. to the Grand Trunk Pacific Terminals will render all of this excellent property most easily accessible from any part of the city

How Does This Appeal to You?

"One week ago we placed the entire parcel of 238 Lots on the market and to-day we have left only 50 lots

That proves quite decisively that the public have the same implicit confidence as we have in this property. Avail yourselves of this very last opportunity to get in on the ground prices, as, true to our word, the prices on the remainder of the lots will be advanced on the above mentioned date

PRICES \$150.00 UP

Terms—One fourth Cash, balance 6, 12 and 18 months. Each Lot 150 ft. deep, running parallel with the Hudson's Bay Reserve, with 80 foot streets to 7th street west.
